

From Colliders to Cosmic Rays

International conference on interconnection
between high energy physics and astroparticle physics

7-13 September 2005, Prague, Czech Republic

The aim of the conference is presentation and discussion of recent research activities and open questions in the fields of cosmic rays and high energy physics. Emphasis is put on topics that have considerable overlap in research aims and methods applied to achieve them.

International Advisory Committee:

Mike Albrow (FNAL)
John Dainton (University of Liverpool)
John Ellis (CERN)
Ralph Engel (IK Karlsruhe)
Thomas K. Gaisser (University of Delaware)
Francis Halzen (University of Wisconsin - Madison)
Andreas Haungs (IK Karlsruhe)
Spencer R. Klein (LBL Berkley)
Giacomo Polesello (CERN & INFN, Pavia)
Leonidas K. Resvanis (NESTOR Institute & Athens Univ.)
Albert de Roeck (CERN)
Mark Strikman (Pennsylvania State University)
Alan A. Watson (University of Leeds)

Local Organising Committee:

Jan Ridky (Inst. Of Physics ASCR) - Chairman
Jiri Dolejsi (Charles University, Prague)
Rupert Leitner (Charles University, Prague)
Dalibor Nosek (Charles University, Prague)
Jiri Rames (Inst. of Physics ASCR)
Vladislav Simak (Czech Technical University, Prague)
Petr Travnicek (Inst. of Physics ASCR)
