Entertainment, sights

Much online info on Prague exists, one of the starting points can be www.prague.cz.

Money, prices

Rate: 1 EUR is about 29 CZK.

Banks are better than the tourist cash exchange outlets, but they are only open from 9 am – 5 pm and not during the weekend.

Any convertible currency is accepted. Travelers cheques are accepted as well.

All major credit cards are accepted in departments stores and tourist shops, not always in restaurants.

A wide network of ATM cash dispensers exist.

The nearest ATM from the meeting site is at Invalidovna Metro station.

Prices depend much on where you go...

But - one can have a dinner for 200-400 CZK, beer for 20-40 CZK, coffee for 30-50 CZK

Security

Needless to say, Prague attracts not only tourists, but also **pickpockets**. Beware of them mainly in crowded areas and on public transport!

Pedestrians have priority at pedestrian crossings but be careful, this priority does not apply with trams.

Public transport

Full information about the public transport is available [here](http://www.dpp.cz/index.php?q=en) (http://www.dpp.cz/index.php?q=en).

All public transport runs between 5 am- and 12 am, everyday, reasonably often (metro every 5-15 min, buses max 20 min)

A 7 day ticket is included in the workshop fee and will be provided at the registration.

The maps of the Prague Integrated Transport System (PIT) are
